### ABOUT ILS

2017 IEEE WIE ILS is one of IEEE Women in Engineering (WIE) global initiatives to provide leading edge professional development for early-career, mid-level and senior women. It is intended to bring together female and male leaders from around the world who are interested in advancing women in engineering and technology.

This year, Malaysia has won the bid to host such event in the Asia Pacific region besides Goa (India), Sri Lanka and Islamabad (Pakistan). 2017 IEEE WIE ILS will inspire attendees through highly interactive sessions which reflect its theme: "Empower, Aspire to Inspire". Attendees will have the opportunities to enhance their skills in the leadership area, learn new ideas and collaborate with technical professionals.
