

WIE AG ILS'19 AWARENESS SEMINAR

Type of Activity: Non technical

Time: 12:30am-1:00 pm

Date: 22nd November 2019

IEEE members: 10

Non-IEEE members: 20

Location: Room no.3, UCET (New Building), Islamia University Bahawalpur

SUMMARY:

One day awareness seminar was arranged by WIE team in UCET IUB. Our targeted audience was freshie of 2019 Batch. I delivered the talk on WIE AG Membership and Development as well as shared my experience of ILS'19 with the new batch. First session was to tell them about WIE AG and in the next, we talked about the importance of ILS. In doing so, I told them about my experience in recent ILS that was held in PIEAS university, Islamabad. I told them that being ILS ambassador and volunteer, the platform fosters confidence, helps in connecting with various experts and one gets to know the current trends in technology and industry.

I told them that it was okay to have failures in our life. One should never fall a prey to hopelessness. Things always work out in the end. One just have to stand up and show some courage and never give up in all the adverse situations.

The students were really enthusiastic to know about WIE ILS and they asked a lot of questions. Among them, many joined WIE AG chapter as a volunteer. Overall it was a good one to one session. I interacted with students and tried to ease their confusion.
